

TSHISEVHE C&I ENERGY

Fiji buys Chinese solar cells

Overview

As part of their green development strategy, China has supported Fiji's transition to clean energy, particularly through the development of solar power projects.

Frequently Asked Questions

Will Fiji be able to source 100 percent of its energy?

Suva, Fiji, October 21, 2020- A landmark agreement between Energy Fiji Limited (EFL) and IFC to deliver the largest solar project of its kind in the Pacific to date has been hailed a transformative step that will take the island nation closer to its goal of sourcing 100 percent of its energy needs from renewable sources.

Who is solar hub NZ & Fiji & Pacific?

Discover Solar Hub NZ, Fiji & Pacific – the largest solar sales organization dedicated to making solar energy more accessible for homes, businesses, and islands. We operate in New Zealand, Fiji & Pacific

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

Is energy Fiji looking for a private sector partner?

Image: UNclimatechange/Flickr State-owned utility Energy Fiji Ltd is ready to start the search for a private sector partner to develop “the largest solar project of its kind in the Pacific to date” after signing a financing agreement with the International Finance Corporation (IFC).

Who supports the Fiji solar project?

IFC has been supported by the governments of Australia and New Zealand through the Fiji Partnership and the Danish Government to carry out this solar project in Fiji.

Will a US\$15 million solar project power Fiji's energy grid?

A press release issued by the IFC, the private sector arm of multilateral development lender the World Bank, revealed plans for a US\$15 million solar project to install at least 15 MW of generation capacity connected to the Energy Fiji grid which supplies 90% of the nation's population.
