Latest news on Seychelles large-scale energy storage project

Overview

Paris & Mahé, August 21, 2025 – Independent renewable energy company Qair has secured a USD 5.7 million senior debt facility from the Facility for Energy Inclusion (“FEI”), managed by Cygnum Capital, to finance the development, building, operations, and maintenance of a 5.8 MWp. Seychelles is advancing its clean energy ambitions with the development of the Seysun Lagoon floating solar plant, a landmark project set to become the nation's first utility-scale Independent Power Producer (IPP) initiative. Located on Mahé Island, this 5.8 MW Seysun Lagoon Floating PV Plant in Seychelles. It is expected to play a pivotal role in meeting the country's renewable energy targets. It is estimated that the project will save approximately 2 million liters of fuel annually and offset ,000 tonnes of in the Republic of Seychelles.

Article Content

Seychelles new energy storage project bidding

The Republic of Seychelles has inaugurated its second clean energy project, a 5MW solar PV plant with battery storage. The Republic of Seychelles has inaugurated its second clean energy project, ...

Seychelles' "first utility-scale" floating solar project secures ...

"Coming just weeks after securing financing for a hybrid solar and storage project in Mauritius, it reinforces our momentum and puts us firmly on course to accelerate clean energy ...

Seychelles to Launch Africa's Largest Floating Solar Project

Seychelles is set to launch Africa's largest floating solar farm by 2025. Learn how this 15 MW project will advance renewable energy, cut emissions, and boost energy security.

Latest news on Seychelles large-scale energy storage projects

(Seychelles News Agency) - Seychelles' energy department is looking for locations to install large-scale solar farms on Praslin and La Digue as part of the island nation's aim to achieve 15 percent ...

Annual Energy Outlook 2026

The type of nuclear power considered by the model is based on representative designs for both large- and small-scale light water reactors. The ...
