FlexSolar 40WThe FlexSolar 40Wis a high-output, easy-to-use charger that can quickly unfold from the size of a large book into six linked solar panels. This med.

Frequently Asked Questions

What is a portable solar charger?

A portable solar charger is used to power your device when you're away from power outlets. We took this into account when we chose to weight direct solar charging speed the heaviest in our testing metrics. It's also no surprise that some of our highest-scoring panels in this metric were chargers with the largest capacity.

Are portable solar chargers good for camping?

Portable solar chargers balance packability and charging capacity. Solar panels for camping are generally larger than portable models. They also have a higher capacity to convert sunlight into energy. The chart below shows the overall score for each model we tested.

Which solar charger should I buy?

The Goal Zero nomad 2 has everything you might need in a solar charger: high wattage, an abundance of USB ports and a business-like folding design and the leading monocrystalline panel type. For mains-style power output on demand, the Ecoflow portable power station and 220W panel is highly recommended.

How many Watts should a portable solar charger charge?

Once you get an idea of charging capacity and your intended use for a portable solar charger, it's time to figure out what devices you plan on using. For smaller handheld items such as smartphones, a portable solar charger with five to fifteen watts should suffice.

Are portable solar chargers a viable way to provide electricity outdoors?

Thanks to efficiency advances and cost decreases in solar cells, portable solar chargers are finally proving to be a viable means of providing electricity outdoors. A backcountry user might carry a smartphone, GoPros, headlamp, tablet, camera, headphones, and PLB or GPS devices.

What is a solar charger & how does it work?

Solar chargers – These take the same basic idea of a solar generator but shrink the solar panel array to make it more portable. They charge your devices directly or through a separate USB power bank.
