Frequently Asked Questions

How much does solar cost in Melbourne?

The below tables show that the cost of solar in Melbourne is very close to the national average. Based on our data from July 2023, the average cost of a common 6.6kW solar panel system in Melbourne is \$6,030 including the STC rebate and GST but excluding the state rebate.

How much does a 6.6kw solar panel cost in Melbourne?

Based on our data from July 2023, the average cost of a common 6.6kW solar panel system in Melbourne is \$6,030 including the STC rebate and GST but excluding the state rebate. So if you are eligible for the Solar Victoria rebate of \$1,400 your costs could be even lower!

Are solar panels worth it in Melbourne?

Yes, solar panels are definitely worth it in Melbourne. We saw that Melbourne solar panels can save a typical homeowner from \$700 to \$2,300 a year with a payback period of 3 to 5 years. This can be even better if you are eligible for the Solar Victoria rebate of \$1,400. How much do solar panels cost in Melbourne?

How much does a 10kW Solar System cost in Melbourne?

The 10kW solar system cost in Melbourne varies depending on several factors, including the brand of solar panels, the inverter quality, installation complexity, and government rebates. On average, you can expect to pay: \$8,000 to \$12,000 after applying government incentives and rebates.

How much does a solar system cost in Victoria?

A small system (3kW and under) should usually cost no more than \$4,000, while systems that are 10kW or larger can cost in excess of \$9,000. The following table shows typical solar installation costs in Victoria compared to the national average. Keep in mind that these prices do not account for certain state solar rebates (discussed below).

How much does rooftop solar cost in Melbourne?

This affordability has contributed to the widespread adoption of rooftop solar across the state. According to Solar Choice's data from July 2023, the average cost for a 6.6kW system in Melbourne is around \$6,030 (including the STC rebate and GST but excluding the state rebate). If eligible, the Solar Victoria Rebate can reduce costs by \$1,400.
